Schoolcraft Memorial Hospital Partners with Blue Cross Blue Shield of Michigan to Expand In-Network Infusion Services Locally

January 31, 2025

Schoolcraft Memorial Hospital is proud to announce that Blue Cross Blue Shield of Michigan insurance members can now receive infusion treatments at in-network rates right here at our facility. This new partnership enhances access to critical infusion services, as our hospital is now a registered site of care for Blue Cross members.

As part of our ongoing commitment to expanding services locally, this collaboration underscores our dedication to increasing access to high-quality care for our community. By partnering with Blue Cross Blue Shield of Michigan, we are breaking down barriers to coverage and improving accessibility in infusion care, ensuring that all patients can receive the life-saving therapies they need in a supportive, close-to-home environment.

We are proud to be one of only a few sites in the region offering this vital service. Patients from surrounding communities are welcome to request Schoolcraft Memorial Hospital as their preferred site for care, ensuring they receive high-quality treatments in a convenient and supportive environment.

This partnership reflects our unwavering commitment to advocating for our patients' health and well-being. Together with Blue Cross Blue Shield, we are dedicated to keeping infusion treatments accessible for everyone in our care.

For more information about our infusion services or to see if you qualify, contact our Prior Authorization team today. Let us help you get the care you need, closer to home.
